

*The Wedge
"Village News"
Final Edition Winter 2017*

The development of the Wedgewoods Website has taken tremendous commitment, time & expertise. Because the information now available on the website has evolved, the newsletter as we know it will no longer be published.

"Over the past three years readership levels fluctuated, important information within the newsletter was getting lost & resident interest changed. Now it is time to move forward & embrace the opportunity our website offers. It's an excellent form of communication, provides a valuable frame of reference, is current & easily accessible to all residents. All the great information we've captured in the newsletters is archived on the website.

Publishing the "Village News" has been a great experience & opportunity for me! My hope is a new area on the website will unfold in the near future for resident involvement opportunities.

I'd like to thank Deba, Sheila & Alannah for working with me, the residents that provided support, to SOC for their input & to The Board of Directors for their commitment. "

*Sincerely, KHMackie
21st November, 2017*

Included below is a chronicle of the "Village News", each edition available to read on The Wedgewoods website. If you aren't a registered user you are missing significant information.

There is no time like the present to get on the information highway :-)

"Village News" Archive @ News & Announcements

Welcome to all from
The Wedge "Village News"

Summer 2015

It has been said "A perfect summer day is when the sun is shining, the breeze is blowing, the birds are singing & the lawn mower is broken." (James Davis)

The good news about living in a condo is the enjoyment of the season is now impeded by the mechanical status of the grass cutter. The other good news is that this is the summer edition of the newsletter. In recognition of the 569 suites, 10 Villas & approx. 1500 residents, this first edit has been named "Village News". Feedback, along with suggestions, from all residents regarding what you would like to see in future editions will be welcome. Our village is filled with a variety of folk, talents, histories & stories. Let's draw it all out here to share. As we begin this first edition it is still summer in Calgary, so theme will be in keeping with the season. Any time after September 23rd will be autumn & we will already be working on our second edition.

The Wedge "Village News"

Autumn 2015

I think of autumn as a twilight season. An abundant wilderness of nature! Our senses are alive! A period of plentiful harvest, canning, preserving & savouring. As we prepare for our fall into winter I am thankful for the hard work done every day in our "Village".

The Wedge "Village News"

Winter 2016

Winter is the season when the world is in slumber. The weather is cold, the ground is hard, trees & plants are sleeping. It's a time to work hard, buckle down & get things done! That is what's been happening here this winter & it is so rewarding to see the benefits of all that hard work being done in our "Village".

Late Winter 2017

The Wedge "Village News"

Spring in Discovery Ridge

2017

Springtime sees the land awakening and everything is full of promise. This is a miraculous time of year as we watch our days fill with colour and allow the scent of our woods to sharpen our senses. It's a time that we should respect all that nature brings and do our part to be faithful caretakers of the land we all share.

Spring 2017

2017 SUMMER EDITION THE WEDGE "VILLAGE NEWS"

THIS HAS BEEN A SUMMER OF GLORIOUS SUNSETS!

Sunset is when all the deep colours I love come out & the stress of the day can be forgotten. Dusk creates a peaceful sanctuary, night birds awaken & the day creatures are still.

If you haven't looked to sky this summer you are missing an opportunity to simply appreciate the setting of another day. And you don't have to venture out of our own backyard to capture the beauty.
